

MAKING A 60-CARD DECK FROM YOUR POKEMON COLLECTION

- ❖ There are 3 types of Pokemon cards:
 - Pokemon Monster Cards (Examples: Basic, Stage 1, Stage 2, EX, GX, Mega)
 - Trainer Cards (Examples: Stadium, Item, Supporter)
 - Energy Cards (Examples: Grass, Fire, Water, Etc.)
- ❖ A DECK MUST BE 60-CARDS TOTAL OF THE 3 TYPES LISTED ABOVE!
 - There's no right or wrong way to make a Pokemon Card deck; it's all personal preference. However, I recommend using the following format when creating your first deck and then changing it once you understand the basics of battle.

1. CHOOSE 20 BASIC POKEMON OF ONE ENERGY TYPE (Example: Find 20 Fire-type aka "RED" Monster cards, they can be duplicates, look at the upper LEFT hand corner to see if it is a BASIC Pokemon)

3. CHOOSE 20 TRAINER cards (Example: Find 20 of any combination of Stadium {GREEN}, Item {BLUE}, or Supporter {ORANGE} cards, they can be duplicates, look at the upper RIGHT hand corner to see if it is a Stadium, Item, or Supporter)

2. CHOOSE 20 ENERGY OF ONE TYPE (Example: Find 20 Fire-type aka "RED" Energy cards)
